ICT 7, Computing 6, Maths 5, Triple Science 5/4/5, English 4/4. Pet-XI Microsoft Specialist (A).

EXPERIENCE

JANUARY 2026 – PRESENT

DIRECTOR & FOUNDER | AJWC TECH CONSULTING LTD

Founded and direct an independent technology consultancy delivering web development, cyber security and data services. Contracted by White Phoenix Digital Solutions Ltd to produce Oracle Fusion training video content across the Finance, HCM and Procurement modules, and to build Excel reporting workbooks and coded dashboards for their end clients. Designed and maintain the company portfolio site at ajwctechconsulting.com.

AUGUST 2025 – DECEMBER 2025

LEAD WEB DEVELOPER | SCOUTNONLEAGUE.COM

Designed, built and launched a full client website to agreed specifications, including integration of subscription and payment systems. Took ongoing responsibility for site reliability, uptime, bug-fixing and updates post-launch, and owned end-to-end cyber security for the platform — safeguarding against hacking, data breaches and malware using industry-standard practices.

MAY 2023 – JANUARY 2024

BARTENDER | THE BOTANIST, BATH

Worked in a high-volume cocktail bar delivering excellent service in a fast-paced environment. Built and served cocktails, coffees and draught drinks while managing stock rotation, keg changes and end-of-night close-down. Strengthened resilience, attention to detail and customer-facing communication under sustained pressure.

JULY 2022 – DECEMBER 2022

CUSTOMER SERVICE MANAGER | LADBROKES

Managed daily branch operations including cash handling and reconciliation of tills and gaming machines, applying strict security and compliance procedures. Served customers across betting transactions while adhering to Responsible Gambling and AML regulations, building strong skills in handling sensitive financial information.

OCTOBER 2020 – SEPTEMBER 2021

CALL AGENT — DHSC IAS & NHS TEST & TRACE | SITEL

Conducted up to 200 outbound calls per day across Tier 3 contact tracing, ISO Follow-Up and the International Arrivals Service. Handled confidential personal and health data in line with GDPR, escalating breaches of isolation requirements to supervisors. Contract repeatedly extended on the basis of strong call quality and reliability.

MAY 2020 – OCTOBER 2020

WEB DEVELOPER & DATA SPECIALIST | STEL TOOLS

Sub-contracted developer working on Magento (open-source e-commerce) sites using PHP, HTML5, CSS, JavaScript and MySQL. Investigated and resolved bugs, broken assets and missing data across development and production environments, and used advanced Excel skills to clean, sort and import product and catalogue data.

OCTOBER 2019 – APRIL 2020

WEB DEVELOPER & SOCIAL MEDIA MANAGER | POLLY'S TEA ROOMS

Redesigned and launched the company website (thepollytearooms.com) introducing modern UX concepts, and ran Instagram and Facebook marketing including monthly competitions and gift card promotions — driving a substantial uplift in new and returning customers. Role concluded due to the COVID-19 pandemic.

PROFESSIONAL DEVELOPMENT

Working towards OSCP (Offensive Security Certified Professional) certification. Active practitioner on HackTheBox and TryHackMe — regularly completing CTFs and lab environments. Completed numerous Immersive Labs in offensive and defensive security during BSc studies.
